

Andrey Savchenkov

FRONT-END DEVELOPER

ABOUT ME

Hello. I have experience in creating SPA with React/Redux/TypeScript. Now I am improving my skills in this direction and expanding them with new technologies. I'm planning to study Node.js because my next focus is to become a Full-Stack Developer. I spend my leisure time on Codewars or improving my English. Open for your suggestions.

Work experience

FRONT-END DEVELOPER

Freelance May 2021
– present

- Took part in creating learning app, developed login page, modal windows, tests, menu and design.
- Use next deleloper technologies: React/Redux /ReduxThunk/RestApi/Axios/Redu xForm/Formik/ MaterialUI/SCSS, etc.
- Check the of the code with Unit Tests and take Storybook for demonstration of individual modules of the application.
- Use TypeScript for best control of the code in work.
